Questions

1. If I was telling somebody about it I would say that it is fun and
great exercise. The most interesting part was the music that we danced
to.

2. The program was more tiring than what I had expected. The most
surprising part was how we did the dances.

3. I discovered that Jamaica is the most healthiest place in the
world.

4. I have learned that it took hard work to do some of the dances
we did.

5. I learned that you use math because you have to count to
eight in each step, we learned about healthy places all around the
world which is social studies.

6. In the future I learned nothing about me or others.

7. No changes were made at all in our performance.

8. Working with others was not challenging at all, I progressed
by following the moves.

9. I think the art form connects to other subjects because you
learn about your body and you have to count while you dancing
which is health and math.

10. The art form helped me connect more to music and my family
because now me and my mom can do the performance instead
of walking all the way in the park.
it will help me connect with other people who like to dance too.

12. It was the best program we ever did at school! It was awesome 😊
